

JHCleans Admin Portal

Complete Field-by-Field Guide

This guide walks through every section of the admin portal in order. Each input is explained in plain language so anyone can update the website, manage jobs, and track finances without guessing.

How to use this guide: Work top to bottom. The sidebar menu order matches the chapters here. Within **Site Content**, use the left panel of category buttons in the same order listed in Chapter 4.

7. Saving, Resetting & Common Mistakes

1. Before You Start — Logging In

URL: Go to `/admin/login` on your website (example: `https://jhcleans.com/admin/login`).

Password

Where you see it on the website: The login screen — a single box with a lock icon, centered on a dark card.

What it is: The secret word that unlocks the admin area. There is no username — only a password.

How to fill it out: Type the admin password exactly as it was set. It is case-sensitive (capital letters matter). Click **Sign In**. If it fails, the box turns red with an error message.

Example: Your password is stored in an environment variable called `ADMIN_PASSWORD` on the server.

Tip: If you forget the password, someone with server access must update `ADMIN_PASSWORD` and restart the site.

2. Admin Sidebar Navigation

After login, a dark sidebar on the left (or a slide-out menu on phones) shows four main areas. The highlighted item is the page you are on.

Menu Item	What It Does	Has Form Fields?
Dashboard	Quick stats, new booking requests, upcoming jobs, recent money earned	No
Site Content	Edit all website text, pricing, FAQs, legal pages, etc.	Yes — main content editor
Calendar	See jobs on a calendar; add, edit, drag to reschedule	Yes — job form popup
Finances	Charts and list of revenue/expenses	Yes — transaction popup
Sign out	Logs you out safely	No

3. Dashboard (Overview — No Editable Fields)

The Dashboard is your home screen. You cannot type into anything here — you read it and click links to go manage things elsewhere.

Revenue (This Month) — Green dollar card — total money earned this calendar month.

Expenses (This Month) — Amber card — money spent on supplies, fuel, etc. this month.

Net Profit — Revenue minus expenses. Green if positive, red if negative.

Pending Requests — New bookings from the public website waiting for you to confirm. Click 'Manage in calendar'.

Jobs Today — How many cleanings are scheduled for today.

Upcoming Jobs — Future scheduled jobs (not cancelled or completed).

Completed Jobs — Total finished jobs in the system.

New Cleaning Requests list — Shows customer name, job title, date submitted, and booking reference. Orange 'Pending' badge.

Upcoming Jobs list — Next 5 jobs with date/time. Click 'View all' → Calendar.

Recent Transactions list — Last 5 money entries. Green + for revenue, amber - for expenses.

4. Site Content — All Categories in Order

Go to **Site Content** in the sidebar. On the left is a list of 14 categories. Click one, edit the fields on the right, then click **Save Section** at the bottom. **Reset to Defaults** throws away your edits for that category only and restores the original template.

Important: Changes do not go live until you click Save Section. Switching categories without saving may lose unsaved work.

4.1 Business Info

Business Name

Where you see it on the website: Site header logo area, page titles, footer, and anywhere the full company name appears.

What it is: The official name of the business.

How to fill it out: Type the full name customers should recognize.

Example: JHCleans.com

Short Name

Where you see it on the website: Compact spots like the admin sidebar and mobile header.

What it is: A shorter version of the business name.

How to fill it out: Use the brand name without extra words.

Example: JHCleans

Tagline

Where you see it on the website: Under the logo or in hero sections — a short catchy phrase.

What it is: One line that sums up what you do.

How to fill it out: Keep it under ~8 words. No period needed.

Example: Professional garbage-can cleaning, sanitizing, and deodorizing delivered right to your curb.

Phone

Where you see it on the website: Contact page, footer, and anywhere visitors see your phone number to call.

What it is: The human-readable phone number.

How to fill it out: Format how people normally dial it, with dashes or parentheses.

Example: (555) 123-4567

Tip: Must match what customers expect to dial — not the tel: link format.

Phone (tel link)

Where you see it on the website: The actual link when someone taps 'Call' on mobile — invisible but important.

What it is: A special phone format for click-to-call links.

How to fill it out: Use digits only with country code, no spaces: +1 then area code and number.

Example: +15551234567

Tip: If empty, click-to-call buttons may not work on phones.

How to fill it out: Must be after Start. Required.

Example: 2026-07-15 10:00

Revenue (\$)

Where you see it on the website: Money you expect to earn from this job.

What it is: Dollar amount for this cleaning.

How to fill it out: Numbers only, can use cents. 0 if not priced yet.

Example: 75.00

Tip: Saving a job does not auto-add to Finances — add a revenue transaction separately if needed.

Notes

Where you see it on the website: Internal only — not shown to customers on the website.

What it is: Gate codes, dog warnings, special instructions.

How to fill it out: Optional, max 500 characters.

Example: Blue house, bins on left side of driveway

Quick status buttons (when editing an existing job): One-click buttons to change status without scrolling — useful on a phone after finishing a job.

Booking ref (read-only): If the job came from the website booking form, a reference code appears at the bottom. Use it when talking to the customer.

6. Finances — Transaction Form Fields

The Finances page shows summary cards, charts, and a transaction table. Click **Add Transaction** or **Edit** on a row to open the form.

Category	Use For
Cleaning Supplies	Soap, deodorizer, chemicals
Equipment	Pressure washer parts, hoses, bins
Fuel & Transport	Gas, vehicle costs
Marketing	Ads, flyers, website costs
Insurance	Business insurance payments
Other	Anything that doesn't fit above

Type

Where you see it on the website: Revenue or Expense dropdown.

What it is: Money in (Revenue) or money out (Expense).

How to fill it out: Pick Revenue when a customer pays you. Pick Expense when you buy something for the business.

Category

Where you see it on the website: Only shows for Expenses.

What it is: What kind of expense.

How to fill it out: Pick the closest category from the table above. Revenue auto-uses 'Service Revenue'.

Amount (\$)

Where you see it on the website: Dollar value in lists and charts.

What it is: How much money.

How to fill it out: Must be greater than \$0. Use decimals for cents.

Example: 45.99

Date

Where you see it on the website: When the money changed hands.

What it is: Transaction date.

How to fill it out: Click the date picker. Use the actual payment date.

Description

Where you see it on the website: Shows in the transaction table.

What it is: Short label so you remember what it was.

How to fill it out: Required. Be specific.

Example: Monthly plan — Smith residence

Vendor (optional)

Where you see it on the website: Only for expenses — small gray text under description.

What it is: Who you paid.

How to fill it out: Store or supplier name.

Example: Home Depot

7. Saving, Resetting & Common Mistakes

Forgetting to Save Section — Site Content changes are lost if you switch categories or close the tab without clicking Save Section.

Wrong phone format — Display phone ≠ tel link. Display: (555) 123-4567. Tel link: +15551234567.

Broken navigation URLs — URLs must start with / and match real pages. Test every link after editing.

One-per-line fields — Trust Indicators, Features, Included items — each line is a separate bullet. Don't use commas on one line.

Story paragraphs — About → Story uses blank lines between paragraphs, not single Enter.

ZIP codes — Use 5 digits, comma-separated. No 'ZIP' word, just numbers.

State codes — Always 2 letters: MO not Missouri, in job forms and addresses.

Legal content — Replace all [UPDATE...] placeholder text before launch. Have a lawyer review.

Fake testimonials — Only use real reviews with permission.

Pending jobs — Website bookings arrive as Pending — change to Scheduled when you confirm the date.

Revenue tracking — Job revenue field is for reference; add a Finances transaction to track money in reports.
